

Software available to DET users

- Microsoft software: Office (Word, Excel, PowerPoint, Access, Publisher, OneNote), Encarta
- Adobe software (Acrobat 9 Pro Extended, Presenter, Photoshop Elements, Premiere Elements)
 - o Staff may purchase both Microsoft and Adobe software for use at home at very reasonable price from <http://www.sigroup.com.au> (click on "Teachers Media")
- SMART Notebook 10 for use at home. See your school technology person for download.

Using SMART Notebook 10

- How do you set a default pen colour, shape colour, font style?
- Add "Zoom" and "Recorder" to the toolbar.
- Don't forget you can use the "clock" very big, just as background.
- Use a timer – make it big on the Notebook page.
- Quickly capture photos of students to make "home / school" page.
- Lesson Activity Toolkit
 - o How to upgrade to 2.0
 - o Explore "Examples, Tools". (deconstruct Balloon pop)
- Make "pigs and cows" exercise.

Quickly introduce photos and videos into SMART Notebook using a digital camera

- Take photo and video of wind-up toy
- Download photos and video to a desktop folder.

Copy information from Microsoft Encarta and process in SMART Notebook (refer to accompanying sheet)

- Paste information onto a new page in SMART Notebook.
- Show how to resize text box width without making text too small.
- Copy parts of the text to different pages.
- Make "cloze exercises" using white pen.
- Hyperlink pages using text labels.

Show Dictionary section of Encarta

- It can pronounce words
- Double-click on words in meaning to find their meaning
- Thesaurus, Translations.

Create a map with town names hyperlinked to sound file of town name

- Open Encarta, Atlas. Scroll and zoom to find map area. Right-click, copy map.
- Paste map into SMART Notebook.
- Record sound of town names using "Audacity" software – (see accompanying sheet)
- Draw a filled rectangle shape over town name. Link sound to shape. Make shape transparent.

Use SMART Recorder to make a training video – (see accompanying sheet)

- Record and narrate "crop a photo" using Microsoft Picture Manager.
-

Make a quiz using Adobe Presenter – (see accompanying sheet)**Make a jigsaw puzzle of a photo** (using shareware) – (see accompanying sheet)
